

## McAfee Security Centre HerdPlus Login Issue

Some people with McAfee Security Centre on their PC have experienced problems with logging into the HerdPlus section of the Website. We have found that the steps below can fix the problem.

- Right Click on the McAfee Icon and open the McAfee Security Centre.
- Click on the Privacy Service tab and select the option Configure Privacy Service Options.

- In Privacy Service Click on Rejected Cookies, highlight 217.75.7.83 and click remove.
- Now click on Accepted Cookies enter 217.75.7.83 into the http field and click Add.
- Login to the site from the main ICBF web page. McAfee will prompt you to allow a cookie access to the farmer's PC. Click Yes/Ok and you should be able to login.
