# UPDATE – for period 18<sup>th</sup>– 24<sup>th</sup> October 2008

#### 1 **Important Dates**

Thursday 13<sup>th</sup> November – ICBF Cattle Breeding Conference, Cork Mart Rathcormac. This major event is being sponsored by the FBD Trust. Please note the change of date (previously on 6<sup>th</sup> November).

#### 2 **ICBF Board Meeting**

At the Board meeting on Thursday decisions taken included:

- 4 To adopt the draft strategic plan, with some modifications, as the basis for formulating the ICBF budget for 2009
- 4 To support a formal approach to the Minister of Agriculture seeking DAFF approval of an ICBF website calf registration support service.
- **↓** To adopt the report on Genomic Selection and G€N€ IR€LAND<sup>®</sup> presented to the Board. The report included:
  - A review of G€N€ IR€LAND<sup>®</sup> 2005 to 2008 •
  - Results of research commissioned by ICBF on the impact of genomic selection on the optimal • breeding scheme design for dairy breeding in Ireland.
  - The impact of genomic selection on G€N€ IR€LAND<sup>®</sup> •
  - Plans for G€N€ IR€LAND<sup>®</sup> and genomic selection in 2009.
  - Progress with Irish research on genomics. •
  - Genomics & ICBF Genetic Evaluation services for 2009. •

#### **Interim Sheep Board Meeting** 3

The outcome meeting of the Interim Sheep Board meeting on Thursday included:

- Signing of forms to register Sheep Ireland Limited and apply for recognition by Revenue as a charitable and thus tax exempt entity.
- 4 A review of progress on the strategy agreed at the previous meeting identified major progress in:

- Sheep Database the database structure has been created and loading of data will commence shortly.
- MALP a number of flocks have been recruited to participate in the MALP scheme.
- Cost Benefits the cost benefit study conducted by AbacusBio Ltd has been completed and • adopted by the Board. The conclusions of the study shows a benefit to cost ratio of 3:1 with potential to reach 6:1, on the investment of  $\in 680,000$  required over the initial 5 year period.
- *Flock Books* a meeting with Flock Books will be held shortly now that the issue of lifetime • identification has been largely resolved.
- **4** Recommendation 17 (dealing with the development of a permanent structure the pulls together and represents all interests) from the Strategy Project Team was adopted and the executive requested to develop a detailed proposal for consideration at a future meeting.

### 4 Database

- 506,084 inseminations have been received so far in 2008, compared with 356,304 in 2007 for the same period.
- The work on revamping the AI software for next season is continuing. Testing has continued, but has been slower than we would have liked. Munster AI will be the first company to go live on the new software.
- The number of calves with a meal feeding introduction has increased to 515,000, with just over 125,000 of these having been weaned.
- 4 The new development work on the Bull Search output has been finalised and will be live next week.
- Next Wednesday, an upgrade of the web-server infrastructure will be completed. In order to complete the work, the website will be unavailable from 6pm-10pm on Wednesday 29<sup>th</sup> Oct.
- The revamp of the Milk Recording system continues. The 'back-end' work is now almost completed, and the focus will switch to the design of the screens for inputting and data correction.
- 4 This week, work has begun on migrating the Sheep Performance system to the Sheep Ireland database.

# 5 G€N€ IR€LAND<sup>®</sup>

### Dairy

- Payments were made this week for the calvings associated with the Spring 2007 programme, which consisted of 7,376 progeny with calving ease records.
- First straws were dispatched for the Autumn 2008 programme. 38 herds now signed up.
- To date 764 test bull progeny from the Autumn 2007 programme have been registered on the database (370 female and 394 male).

G€N€ IR€L

**4** The first milk recordings are coming through for daughters of the Autumn 2005 test bull panel.

### Beef

- 4 There are now 2 Belgium Blue test bulls in the Autumn 2008 programme, with the addition of RSA (Ross A, SBV €141) last week.
- Another Limousin test bull has been added this week (RBU Roundhill Botan 983, SBV €181). He has replaced FL24, which has now reached the target number of straws dispatched.

#### **Genomic Selection**

As was mentioned last week, a final push is required to obtain straws from proven AI bulls used within Ireland for the purpose of Genotyping. Below is a list of the top 100 most used AI dairy bulls that we have yet to acquire, and for which there should be straws available. We would appreciate your assistance with this task. (Please see file below)

## 6 Genetic Evaluations

- Work continues on the dairy and beef genetic evaluations which will have an anticipated release of proofs in the 2nd-3rd week of November.
- A meeting was held in Lelystad, The Netherlands on Tuesday in the Animal Sciences institute to discuss the possibility of using Italian EBVs from ANABORAPI in the Irish beef evaluation. The meeting was constructive and it is anticipated the results of this work will be incorporated in time for the first beef evaluation in 2009. Present at the meeting was Roel Veerkamp and Han Mulder from ID-Lelystad, Andrea Albera from ANABORAPI and Ross Evans from ICBF. The meeting coincided with a visit to Lelystad by Ross Evans to discuss enhancements to the use of foreign data for future evaluations.
- Francis Kearney gave a talk to Agricultural Science students in UCD on Thursday on dairy breeding objectives.
